

CompTIA A+ Certified IT Technician (Exam 220-602) Self Study Kit

What is a CompTIA Accredited Technician?

CompTIA is the Computing Technology Industry Association with over 20,000 members worldwide. The CompTIA A+ certification is the world standard entry-level qualification for computer technicians and engineers, recognised by employers everywhere. It validates IT hardware and software technical skills and confirms a technician's ability to perform tasks such as installation, configuration, diagnosing, preventive maintenance and networking.

How this Course works

When you enrol for this course, you will receive the CompTIA approved coursepack, which includes comprehensive coursebooks and CD for use on your own computer. You work through the course at your own pace, completing practical work and assessments.

Pre-requisites

You must have a good working knowledge of Microsoft Windows.

Accreditation

Following successful completion of exams you will receive a certificate to confirm that you are a "Certified CompTIA A+ IT Technician".

Exam fees are not included in the course and are currently £112.00 each

To earn the current CompTIA A+ certification, candidates must pass 2 exams: the "CompTIA A+ Essentials" (220-601) exam as well as one of three job-role specific exams. Candidates may choose among the CompTIA A+ IT Technician exam (220-602), the CompTIA A+ Remote Support Technician exam (220-603), or the CompTIA A+ Depot Technician exam (220-604).

For more information on the CompTIA A+ certification, please visit <http://certification.comptia.org/a>.

What's in A+ Certification Kit (Essentials + 220-602) with MeasureUP, CertBlaster, CBT and CourseCards:

This kit includes:

- A+ Certification: Essentials, 2e Student Guide + MeasureUp, CertBlaster & CBT
- A+ Certification: 220-602, 2e Student Guide + MeasureUp, CertBlaster & CBT
- Multimeter
- 22-piece toolkit & wrist strap
- Nylon bag
- A+ Certification: Essentials CourseCard
- A+ Certification: 220-602 CourseCard

The A+ Certification: Essentials, 2e Student Guide, rated 4.9/5.0 in overall quality by ProCert Labs, will prepare students for the CompTIA A+ Essentials certification exam (2006 Objectives). Students will obtain the skills and knowledge necessary to install, build, upgrade, repair, configure, troubleshoot, and performing preventative maintenance on personal computer hardware and operating systems.

The A+ Certification: Essentials, 2e Student Guide, rated 4.9/5.0 in overall quality by ProCert Labs, will prepare students for the CompTIA A+ 220-602 certification exam (2006 Objectives). Students will learn how to support PC hardware in a business setting, including installation,

troubleshooting, and component replacement. The target student for this course is responsible for maintaining PCs in their workplace.

Why A+ Certification Kit (Essentials + 220-602) with MeasureUP, CertBlaster, CBT and CourseCards

- Prepares A+ students for both CompTIA A+ Exams.
- All your A+ certification needs in one convenient and very low priced package
- Includes CompTIA Press approved materials
- Integrated mapping of all CompTIA exam objectives
- Comes with a companion CBT program, Certblaster and MeasureUp exam prep software.
- Study Hours approximately 60.
